

# 9 Ports 144FO Fiber Optic Dome Closure

Part No.: D1449

## Applications

- The Closure provides perfect solutions for the protection of fiber splice points from the environment, especially from the permeation of water.
- Protection Grade: IP68. Suitable for aerial, cable duct, direct bury, pole-mount.

## Features

- Housing is made of high-quality engineering plastic (MPP) which has good mechanical performance and hydrolysis resistance, chemical resistance.
- Max. 6 splice trays and Max. 144FO with storage tray for uncut cables.
- Perfect fiber management - Clear fiber function division and fiber routing.
- Cable sheath and strength member fixed by reliable metal kits and grounding provided optionally.

## Specifications

Part No.	D1449
Color	Black
Material of Housing	MPP (Plastic)
Dimension (mm)	470 × Ø 210
Oval Ports	1
Circular Ports	8 (Ø 12mm)
Splice Capacity	72/144 Fusion Splice
No. of Trays	6 PCS
Splices per tray	12/24 Fusion Splice
